accreditation

Crestwood San Francisco Healing Center is accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF). This accreditation requires a higher standard of care than the licensing standards in California. Crestwood believes this accreditation demonstrates our unwavering commitment to achieving and maintaining the highest level of care and rehabilitation.

Crestwood San Francisco Healing Center

Crestwood's San Francisco Healing Center is a Mental Health Rehabilitation Center (MHRC) located in San Francisco and overlooking the beautiful Golden Gate Park. The campus is located on the 5th floor of St. Mary's Medical Center and is the first Crestwood program in the City of San Francisco. This groundbreaking program represents a collaboration between healthcare and municipal leadership, including UC San Francisco, Dignity Health, the San Francisco Mayor's Office, San Francisco Public Health, San Francisco Behavioral Health and Crestwood.

The campus' innovative program is based on Crestwood's commitment to providing mental health clients a continuum of care that puts them on the road to recovery. San Francisco Healing Center employs certified peer providers to help lead their clinical treatment team. The campus' clients participate in Dialectical Behavior Therapy (DBT), a modified cognitive-behavioral treatment that is the only Evidence-Based Practice to prevent suicide. DBT assists clients in learning skills to help them regulate their emotional responses to situations that occur in their lives. Clients also create and maintain a Wellness Recovery Action Plan (WRAP). WRAP is a self-help, recovery treatment system designed to decrease symptoms, increase personal responsibility and improve quality of life. The facility also provides a versatile array of classes for clients to participate in during their recovery program, and encourages active participation in treatment planning from the moment of admission.

program

San Francisco Healing Center MHRC

Our services at the San Francisco Healing Center support each client to recover with an enhanced sense of resilience, accessing a wide-range of wellness tools and staff support. The mission of this program is to restore a sense of hope, empowerment, community/natural support inclusion, and realized potential in each client, as well as psychiatric stabilization.

At our San Francisco Healing Center, community integration and dual recovery are key tenets. Community reintegration is designed for those clients who need help developing some of the basic life skills that will assist them when returning to their communities. We accomplish this through classes, therapy, community service and peer mentorship. Many clients participate in our Dreamcatchers Empowerment Network pre-employment training. This training enables clients to become Dreamcatcher employees and helps provide them with meaningful roles and services to the community.
